

**This file contains the 2011 IJA Festival Workshops schedule, in booklet format.**

**Using the Duplexing (double-sided printing) feature of your printer, you can print these four pages onto just two letter-sized sheets of paper, fold them once, and have a nice 8-page half-letter-sized booklet, just like the one being handed out at the festival.**

**The booklet format makes the schedule easy to read and to handle.**

**Set your printer or use the print dialog box on your Print menu to choose Duplex or Double-Sided printing when you print these four pages.**

**If you do it right, the booklet's front and back cover will be on one side of the first sheet. The map of the facility will be on the inside front cover of the folded booklet, and the schedule for Saturday will be on the inside back cover. The second sheet will start with the Tuesday schedule facing the map diagram; the center spread pages will have Wednesday and Thursday's schedule; and the back page will have Friday's schedule.**

**Have fun and we'll see you in Rochester!**

### **Thanks and Recognitions from Workshops Director Matt Hall**

First of all, I would like to thank my wife Lisa for her support and for her invaluable advice and editing skills.

Second, I would like to thank Mike Sullivan and the rest of the festival team for their hard work and comradeship over the past year.

Last, and certainly not least, I want to thank each and every person who volunteered of their time and their talents to share with others this week. It has been said before, and it bears saying again, that we do not attain our goals alone. I cannot think of a better way to pay back the person who taught me than by teaching another person.

Who knows what seeds you planted this week will bear fruit? Time will tell...

To all the workshop leaders this week, I again offer my most heartfelt thanks and my deepest gratitude.

**Matt**
